

Nursing Tables –
Height-Adjustable for a
Healthy Work Posture

Flexible nursing tables

Good and healthy work postures require flexible solutions. The nursing tables from Pressalit Care have been carefully designed to enable staff working in nurseries, kindergartens and hospitals to care for children without subjecting their backs to heavy lifting.

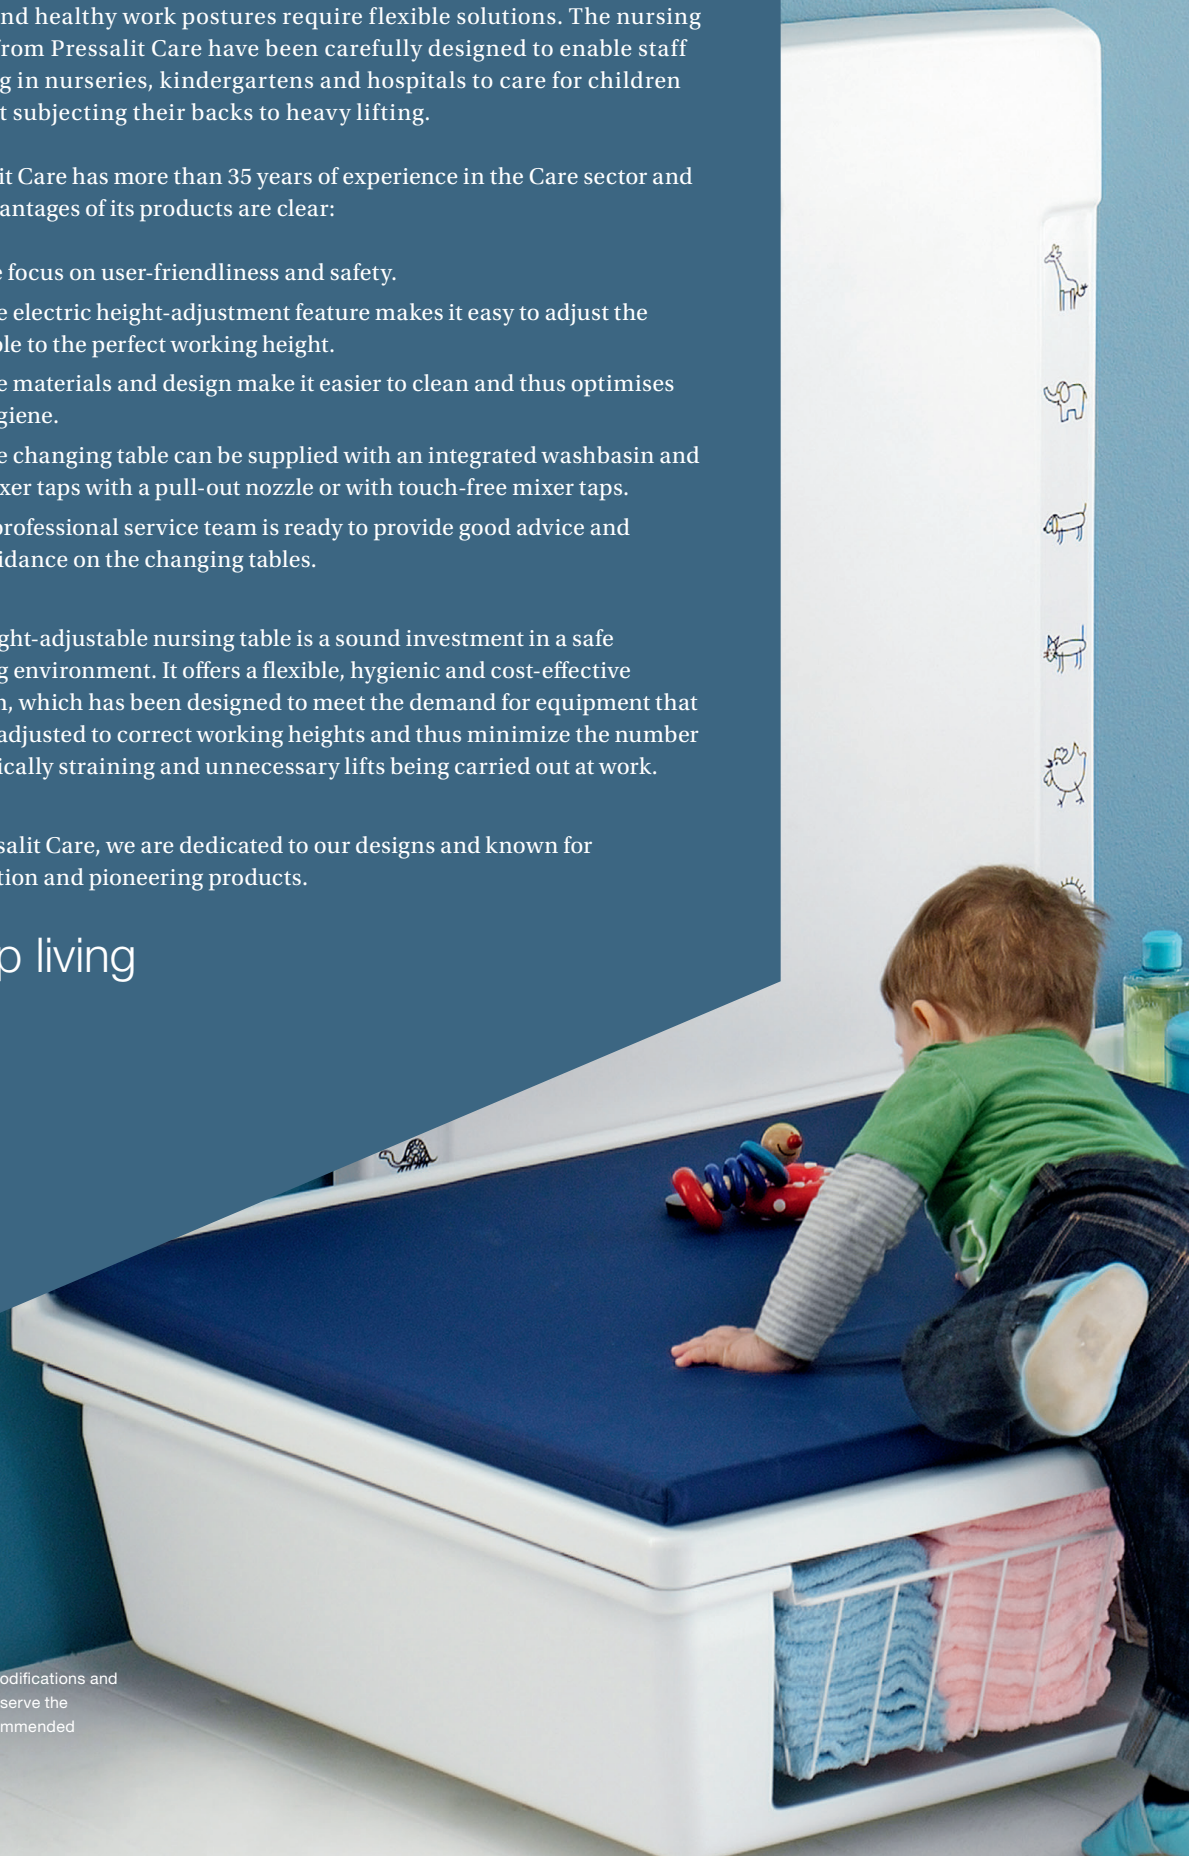

Pressalit Care has more than 35 years of experience in the Care sector and the advantages of its products are clear:

- We focus on user-friendliness and safety.
- The electric height-adjustment feature makes it easy to adjust the table to the perfect working height.
- The materials and design make it easier to clean and thus optimises hygiene.
- The changing table can be supplied with an integrated washbasin and mixer taps with a pull-out nozzle or with touch-free mixer taps.
- A professional service team is ready to provide good advice and guidance on the changing tables.

The height-adjustable nursing table is a sound investment in a safe working environment. It offers a flexible, hygienic and cost-effective solution, which has been designed to meet the demand for equipment that can be adjusted to correct working heights and thus minimize the number of physically straining and unnecessary lifts being carried out at work.

At Pressalit Care, we are dedicated to our designs and known for inspiration and pioneering products.

PRESSALIT[®] CARE

Reduced functionality need not limit a person's development. For more than 35 years, the keep living philosophy has been a guiding principle for Pressalit Care's development of flexible kitchen and bathroom solutions for people with disabilities.

Thanks to its research-based knowledge, Pressalit Care is a market leader within specialist kitchen and bathroom solutions and today provides consultancy to customers worldwide.

An underlying respect for the individual and his or her possibilities is also reflected in the company's relationship to society at large and the local community. At Pressalit, Corporate Social Responsibility (CSR) is deeply rooted in the company's strategy and values which provide direction for all parts of the organisation.

Pressalit Care's head office is located in Denmark.
